

FIRE DETECTION

Conventional devices

DETECTORS AND BASES

TOA

Optical smoke detector
(to be combined with the base EMBCAO).

TTA

Heat detector
(to be combined with the base EMBCAO).
Available in 50°C, 65°C, 80°C.

TMCA

Multisensor detector
(to be combined with the base EMBCAO)

TFUVAW

Flame detector delivered with base and mounting bracket.

EMBCAO

Base for conventional detector.

KITSEAP

Watertight kit for TOA, TTA, TMCA.

TOD

Optical smoke detector
(to be combined with the base EMBCD).

TTD

Heat detector
(to be combined with the base EMBCD).

EMBCD

Base for detector TOD and TTD.

KITSE

Watertight kit for TOD and TTD.

TOEXA

Intrinsically safe optical smoke detector.

TTEXA

Intrinsically safe heat detector: TTEX50AW, TTEX65AW, TTEX80AW.

Intrinsically safe static heat detector: TTEXS50AW, TTEXS65AW, TTEXS80AW.

TMEXA

Intrinsically safe multisensor detector.

EMBCEXA

Base for intrinsically safe detector.

APPROVAL

► MED

MANUAL CALL POINTS

DMA

Indoor manual call point IP24D.

DME

Waterproof manual call point IP67.

DMEXEA

Intrinsically safe manual call point IP67.

SIRENS AND BEACONS

SDIR24_1CDE

Multi-tone red siren, 24VDC, 100dB, IP65, MED.

FSDIR24_10CDE

Multi-tone red sounder/beacon 24 VDC , 1J, 100dB, IP65, MED.

OTHER

DIAR01

Multisensor detector with relay base.

IGEXCONV

Galvanic isolator for intrinsically safe detector (to be combined with TOEXA, TTEXA, DMEXEA).

IAA

Remote indicator not waterproof.

SIRRAH TEMPO

Conventional loop detector timer delay.
